FINALLY, A CONSTITUTION WHICH CAN SAVE BHARAT i.e. INDIA, based on humanity as the foundation. (*Humanism is a subset of Vedic dharma, but it is atheistic. – Skanda987*) Three class of people will be against it:

- Politicians and Lawyers
- Corrupt people
- Anti-Nationals/ ANTI BHARAT's-culture

I 'Bharat Somal' has drafted an Alternate Constitution of India and I am thankful to Shri Durgashanker ji for editing this draft. This constitution has ARTICLES based on Vedas, Sharia and other works of many notable writers. At the first sight this appears to be a fictitious document, but it is a very useful document if adopted and followed religiously. This would help the entire world not only BHARAT i.e. India or what used to be Bharatvarsh, Aryavrat, or Jambu Dweep, simply because it has the crux of human life and character where honesty, speaking truth, not stealing or distorting words in any

speech along with knowing that TRUTH for which many sages and seers of the truth long for.

Although written with India or my own birth country in my mind, if it is followed after its adoption, it shall undoubtedly make any country filled with humanity, human values, prosperity, and make that country a world leader apart from making the whole world as one country –so to say. This shall definitely eradicate any feelings of selfishness, egoistic, superiority or inferiority, capitalistic or communism or socialism, or Christianity, Muslimism, Hinduism, Buddhism, Sikhism, or any “ism” from human minds. This shall make people honest, compassionate, caring, sharing citizens of such a world to make their country and world one big family while still having different names of the countries, races –like Caucasians, Mongolians, Aryans (*Aryan is not a race per the Vedic scriptures. – Suresh Vyas*) and colored people (which once their masters called them Negros).

This constitution shall make an honest, pious society either by their moral, ethical, spiritual in life and skill education, or by law. This constitution when followed shall solve India’s biggest problem of sky rocketing population and lack of natural resources, which can be an asset to India when her people are rightly educated which this constitution shall guarantee, else that humongous population is her biggest liability. The Law making people, Law enforcing people including people in judiciary, and by far the largest group of citizens of this world –the general public, shall become pious, honest, god or their own conscious fearing, and shall not be, or shall hesitate doing any crime, because firstly they are prevented to do crime by their right education, and secondly if someone still does it he or she shall be severely punished out of proportion of the crime they did. And that punishment shall be in open so that others who see that happening shall deter themselves from such or other crimes. No one person or a group of persons –may that be politicians, civil servants like collectors, commissioners, such as IAS, IFS, ICS, judges of the supreme courts and high courts or lower courts or the president or prime minister for that sake any human or citizens of a country particularly India or Bharat shall be above the laws of the land or shall have such powers or wealth, etc. that they can become corrupt dictator like, yet not dictator, and put their own selfish interest above the interest of the country or humanity. There shall be then no ignorance due to so called different religions, provincials, countries, races, etc., if the Alternate Constitution of Bharat is adopted and enforced by any country specially to begin with India.

This Alternate Constitution, if adopted and enforced, shall CHANGE THE SYSTEM by changing the citizens of India and shall make her people more human from the height or depth of inhumanity as shown on news of a corpse carried 10 Km. by a villager on his shoulder when the hospital mortuary denied him the conveyance to take the corpus 60 Km. to his village. That was certainly not the India of MAHARISHI MANU, RANA PRATAP, SHIVAJI, RISHI Dayananad's, or our ancestor's dream.

*(I have not read the book yet. Bharat ji and I do not know each other. If this Alt. Constitution gives legal status to any anti-Vedic religion or ideology, then I would say it needs change because Vedic is universal dharma for mankind. It provides complete spiritual science living per which anyone can advance spiritually. Additionally, Hindustan is the cradle of the Vedic civilization and homeland of the Hindus (Vedics) of the world. Jai Sri Krishna! – Suresh Vyas www.skanda987.wordpress.com)*

“After studying Vedas, Manusmriti and Sharia, I ‘BHARAT SOMAL’ have come up with the constitution which will fit almost any nation, my focus is on my own country ‘INDIA’. I am seeing how great ‘BHARAT’varsh’, i.e., ‘BHARAT’ aka INDIA has lost its glory, it is on the verge of losing its roots and falling like a giant tree. I felt that existing CONSTITUTION of ‘BHARAT’ which was given by British allows an imperfect system in ‘BHARAT’, irrespective of who comes into this system, the system does not allow a person to remain honest, it slows down the complete government machinery. I blame most of the politicians for this demise of a great nation. Current constitution is ambiguous and allows court cases to go on for decades. This is an effort to change the system and make sure that even if a corrupt person comes into power than the system makes him or her honest, either by his or her wish or by law. This constitution will make sure that following evils are removed from society.

- \* Too much power in hands of few
- \* Religious Violence
- \* Slogans to break INDIA
- \* Terrorism
- \* Caste System
- \* Riots
- \* States fighting for breakup from India
- \* Corruption free society
- \* Farmer friendly

Resolve issues of those who want Azadi and so on...

One must read this constitution, provide your inputs, take good laws from it and send them to our law-makers.”
