May each and every person strive to achieve inner harmony – essential memory of the heart that safeguards human compassion.

May you remember the Profound Prayer of Peace resounded by the Rishis from timeless beginning for the noble benefit of all species.

May you instill the spirit of love, compassion, and nurturance for all lives, and may your awareness for all lives — humans, animals, trees, earth, space, air, water, fire, and, indeed, every speck of sand — grow in quantum leaps.

May you shift your consciousness to generate reverence for all life.

May you never participate in, or contribute to, the pain of another person or species.

May you encourage others to desist partaking in the killing and eating of the animals.

As long as humans kill animals, there can be no peace.

May everyone be prosperous. May the peacemakers righteously rule the Earth.

Let the animals and people of wisdom be protected at all times.

May all be happy. May the rains come at the proper time. May the Earth produce grains.

May the world be free from famine. May the people of contemplation have no cause for fear.
