January 15, 2019

As the BJP disowned its core election promises, many of its core supporters disowned BJP.

This write-up explains BJP government's blunders/mistakes and explains what it must do in its remaining tenure to win back its alienated supporters and to have a splendid victory in 2019.

It appears that BJP uses nationalism as a tool to get power. But after getting power, it forgets its core nationalist promises through which it gets power.

Sv: Just as in US, every elected politician and govt employee must think that they are the servants of the citizens. They must give up any ego. They are not above any citizen when they need to serve in the interest of Maatrubhumi.

Fed-up with **Congress-led UPA government's** anti-Hindu, pseudo-secular, divisive and minority-appeasement policies from 2004 to 2014; and impressed by **BJP's nationalist agenda**, countless nationalists toiled to give BJP a massive mandate of 282 seats and an **absolute majority** in Lok Sabha in 2014.

*To escape discrimination, some Hindu sects proclaim that they are not Hindu.*

Sv: This is I call dharma glaani, and no sense of being a citizen of the great Vedic nation whose Vedic sanskriti and scriptures are all inclusive, providing complete Spiritual Science for mankind, living per which any human in any situation, time or place can advance spiritually. The solution in including dharma education in schools and universities. To do it, first thing is to purge out anti-national and communist faculties from all our universities.

But after getting power, BJP has forgotten its **core promises** for which it was known and respected. BJP has done nothing to fulfil its perpetual promises regarding "**justice to all and appeasement of none,**" Uniform Civil Code, abolition of Article 370 and 35, rehabilitation of Kashmiri Hindus in Kashmir, same rights and same laws for all Indian citizens irrespective of their religion etc. etc. These basic pillars gave BJP its distinct identity and enthused its supporters.

After winning elections on the slogan of Congress-free India, BJP government has **wasted** over **four years** in continuing and expanding the

Congress-led governments' anti-Hindu, discriminatory, pseudo-secular and minority-appeasing laws and policies which are destroying Hindu civilization.

Sv: The idea "सबका साथ सबका विकास" has a defect: Even the asuras and "cancer cells" also get stronger to fight/kill the suras.

BJP has not **repealed** or **amended** any anti-Hindu law or policy to stop blatant discrimination against Hindus and to treat Hindus at par with other communities.

BJP has forgotten **who** had voted for it and why. Discrimination against any community can never be legitimized or justified.

Sv: Govt creating reservations for so called shudras is a discrimination that hurts the community and the nation. To get the benefit all want to become shudras and shudras want to remain shudras to get free benefit. They will have no interest to genuinely develop them selves to become well qualified for a free position or slot. Any self-respecting shudra must resist getting anything free from govt or anyone. At the same time private businesses, and social and dharma org.s need to develop those who need to be developed to become productive and self-supporting.

As the BJP **disowned** its core election promises, many of its core supporters disowned BJP.

And this made BJP lose **Assembly elections of 2018** in Hindi heartland of Chhattisgarh, Madhya Pradesh and Rajasthan.

This write-up explains BJP government's blunders/mistakes and explains what it must do in its remaining tenure to win back its alienated supporters and to have a splendid victory in 2019.

BJP's blunders

BJP government's blunders i.e. mistakes of **omission** and **commission** which have disappointed and alienated many of its core supporters are as follows:

i. Inaction on **Dr Satya Pal Singh's Bill** for equal rights

Though **secularism** means equality before law and non-discrimination on grounds of religion, Hindu religious and educational institutions and Hindu temples are subjected to government's **interference** whereas minorities enjoy full freedom in this regard.

Sv: "Secularism" is a foreign concept, a medicine against Christianity that, like Islam, is exclusive and dogmatic. It is not for Hindus because Hindu dharma and culture are inherently all inclusive and respectful to all religions or ideologies that are respectful to the Hindu dharma. Therefore, all Hindus and need to act with unity to make Bhaarat a Vedic State, not secular. We have freedom to do it, and we can do it with unity and united actions. And we need to do it soon.

Government's control of Hindu temples and their estates is depriving Hindus of their right to religious freedom guaranteed under Articles 25 and 26 of Indian Constitution and is also depriving Hindus of a self-supporting infrastructure of their places of worship.

To escape discrimination, **some Hindu sects** proclaim that they are not Hindu. While earlier, Ramakrishna Mission had claimed itself to be a non-Hindu minority, now some Lingayats in Karnataka want non-Hindu status.

Sv: again, it is dharma glaani and not being able to see or care Hindu national interests.

Dr Satya Pal Singh, a BJP member of Lok Sabha, introduced Bill Number 226 in 2016 **seeking amendment** of Articles 15, and Articles 25 to 30 (of

Indian Constitution) to extend the religious, educational and cultural rights stipulated therein to **every community**, whether majority or minority. This Bill was meant to treat Hindus at par with other communities without depriving minorities of their rights.

BJP's inaction to get this Bill passed is bewildering. This Bill would **lapse** if it is not passed in the present Lok Sabha.

## ii. **Special benefits** for minorities

While in opposition, BJP had condemned the Congress-led government's action in constituting the **Sachar Committee** and **Minority Affairs Ministry** in 2006 as communal, divisive and "appeasement" of minorities. But after getting power in 2014, instead of **discontinuing** the Ministry of Minority Affairs and its divisive policies, BJP government has continued the Minority Affairs Ministry and minority-appeasement policies as 'minority empowerment' policies; and has also launched many new schemes for minorities.

Instead of helping **all Indian citizens** irrespective of their religion, the government is providing various scholarships, free-ships, special schemes, financial and educational incentives to minorities. And Hindus are deprived of these benefits only because of their religion.

At present BJP government is implementing many **special schemes** for minorities including those named as "Nai Manzil", "Nai Udaan", "Naya Savera", "Nai Roshni", "Shaadi Shagun", "Padho Pardesh" etc. etc. Besides, renaming it as Pradhan Mantri Jan Vikas Karyakram, BJP Government has expanded Multi-sectoral Development Plan for Minorities to 308 districts.

BJP government is allocating thousands of crores of rupees for these schemes for minorities every year.

*Amendment of Atrocities Act will perpetuate caste divisions by pitting different sections of society against each other.*

Sv: Exactly! It must be stopped.

iii. Continuation of **RTE Act**, 2009

The Congress-led government had passed the "Right of Children to Free and Compulsory Education Act, 2009" which is **applicable only to Hindu-run schools** (and minority-run schools are exempt from it). This Act has made the cost of Hindu-run schools prohibitive resulting in **closure** of thousands of Hindu-run schools all over the country. However, the BJP government has done **nothing** to ensure that all schools, whether run by a majority or by minority community, are either covered by this Act or are free from this Act.

iv. Abdication of **Uniform Civil Code**

Implementation of Uniform Civil Code has been BJP's perpetual election promise. Besides, even Supreme Court has suggested its enactment in a number of its judgements. And Article 44 of Indian Constitution stipulates that "The State shall endeavor to secure for the citizens a uniform civil code throughout the territory of India".

The constitution and the Govt documents must stop the use of the word "India." Replace it with Bhaat, or better, Aravart.

Still, BJP government has done nothing in this regard.

v. **Article 370** and coalition with PDP

BJP's Election Manifesto had promised **abrogation** of Article 370 and return of **Kashmiri Hindus** "to the land of their ancestors with full dignity". However, the BJP government has taken no action in this regard.

And by compromising its stand on Article 370 for which **Dr Shyama Prasad Mukherji** sacrificed his life, BJP formed a **coalition** government with the People's Democratic Party in Jammu and Kashmir in March 2015. This coalition continued till June 2018.

Sv: Shame! The world or a nation or a company or a family or person progresses when he/she/it keeps its promises. Even the mafia gangs succeed (for sort time) by keeping their promises. When police keep their duty-promises, mafias (asuras) will fail. ॥ संघे शक्ति कलौ ॥

Surprisingly, BJP government has been **seeking an adjournment** of hearing for filing its reply on petitions for repeal of Article 35A (an off-shoot of Article 370) filed in 2014 by "We the Citizens", and by others before the Supreme Court.

vi. '**Atrocities Act**' amendment and '**General category**' reservation

Congress government had enacted the "Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Act, 1989," commonly known as 'Atrocities Act'.

Supreme Court's judgement dated March 20, 2018, passed in the case of Dr Subhash Kashinath Mahajan versus The State of Maharashtra provided for a preliminary enquiry, anticipatory bail and prior approval of appropriate authority before arresting an accused under the 'Atrocities Act'.

Due to protests from some sections against this judgement, government amended the Atrocities Act to **remove** the provisions of a preliminary enquiry, anticipatory bail and prior approval before arresting an accused.

Amendment of Atrocities Act will **perpetuate caste divisions** by pitting different sections of society **against** each other. Moreover, it will encourage caste-based politics in the country.

sv: Caste by birth is sin. Please read a short article in this matter.

<https://hinduunation.com/2016/05/21/defining-ones-caste-by-birth-is-sin-per-dharma/>

Since the Supreme Court's judgement **duly safeguarded** the basic purpose of protecting vulnerable sections of society, many of BJP's supporters are unhappy with amendment of the Atrocities Act.

To assuage aggrieved sections, BJP government has given **ten percent** reservation in jobs and educational institutions to the economically backward section in 'General' category. But instead of having a holistic appraisal of the system of reservation, this expansion of reservation would open the floodgates of **further problems** in reservation politics in future.

Moreover, one must remember the crushing defeat of Rajiv-Gandhi-led Congress Party in 1989 after his Government passed the Muslim Women (Protection of Rights on Divorce) Act, 1986 to overturn the Supreme Court's judgement in Shah Bano's case following Muslims' protests.

### **How BJP can win in 2019**

Actions speak louder than the words. And empty slogans and rhetoric mean nothing.

***BJP must ensure that Dr Satya Pal Singh's above-mentioned Bill Number 226 of 2016 is passed by the present Lok Sabha at the earliest and that it does not lapse.***

To ensure that BJP wins Lok Sabha Elections in 2019, and it does not meet the fate of its '**India Shining**' campaign of 2004, it must act fast and win back its alienated supporters. BJP can win back its supporters even now if it **stops** its **pseudo-secular** march and takes immediate action at least in the following two areas:

1. Dr Satya Pal Singh's Bill **must** be passed

BJP must ensure that Dr Satya Pal Singh's above-mentioned Bill Number 226 of 2016 is passed by the present Lok Sabha at the earliest and that it **does not lapse**.

No one can object to this Bill since it **does not** take away any right from minorities. This Bill only ensures that all communities, whether majority or minority, are treated equally before the law and enjoy the same religious, educational and cultural rights.

2. **Help all** irrespective of religion (but not the anti-Vedic asuras, so says Dharma)

As an opposition party, BJP had **criticized** the Congress government's action in constituting the Sachar Committee and Ministry of Minority Affairs in 2006 as communal, divisive and "appeasement" of minorities.

It requires **just a Cabinet decision** (and it does not require any legislation) to abolish the Ministry of Minority Affairs and its divisive policies.

Accordingly, the BJP government must discontinue the Minority Affairs Ministry; and start helping all Indian citizens irrespective of their religion.

Instrument of **redemption**

It is in the national interest, and also in its own interest for BJP to take **immediate action** in the above-mentioned two areas. This action would greatly motivate and enthuse its countless supporters to give BJP a magnificent victory in Parliamentary elections of 2019 as they had given in 2014.

And considering the short time at its disposal, BJP must do the needful at the earliest. And become the instrument of redemption for the nation.
